Our Philosophy

Each client is unique. We believe the key to achieving your individual estate planning goals is understanding your personal objectives and values. O'Sullivan Estate Lawyers provides a comfortable atmosphere where the intricacies of your finances and family relationships may be discussed frankly and with discretion.

The solutions we provide, whether simple or sophisticated, are presented in a straight forward manner and carried out cost-effectively. We provide a level of personal service not achievable in large institutional or transaction-oriented law firms.

Our in-depth private client expertise includes estate planning and will, trust and incapacity planning. We act in the administration of trusts and estates and regularly advise executors and trustees in carrying out their responsibilities. We are well recognized for our special expertise in dealing with complex cross-border and multijurisdictional planning and administration matters.

We have expertise in estate dispute resolution and court applications, including representing executors, trustees and beneficiaries, and passing estate and trust accounts, seeking court directions and guardianship applications. We also provide independent legal opinions on trust and estate matters.

Exceptional solutions. Your needs are as unique as you.

Planning Solutions for Individuals and Families

From complex will and trust planning to incapacity planning and domestic contracts, our lawyers can help you find effective solutions for your estate planning needs. We will help you understand your options and develop an estate plan that meets your objectives and the needs of your family into the future, including tax-planned wills and trusts.

We will assist you if you have challenging issues, such as family members with special needs, a blended family, or family dissension in order to provide wealth solutions.

We also advise on charitable giving and the establishment of private foundations. As well, we advise on domestic contracts including situations involving trust interests and high value complex assets.

Administration of Trusts and Estates

The administration of an estate or trust can be confusing and overwhelming. We can assist you to administer an ongoing trust, or an estate following the loss of a relative or other loved one, or for an incapable person. From guiding you through the initial steps, to obtaining probate of a will where necessary, to distribution of assets to beneficiaries, and final windup and establishment and administration of any continuing trusts, we can provide our experience and know-how.

We can also assist you as an executor, trustee, guardian or attorney in obtaining approval of your administration, including preparing accounts for court approval where advisable.

Navigating Cross-Border and Multijurisdictional Estate Matters

If your trust and estate matter involves assets, beneficiaries, executors, trustees or other representatives in another jurisdiction, we can provide solid legal direction.

We are well known in the trust and estate profession for complex high-net worth planning, including multiple will planning for assets in different jurisdictions and separate situs powers of attorney. We can also assist in estate and trust administration for foreign assets with a multijurisdictional and cross-border connection.

Many of our mandates involve advising clients with legally significant ties to more than one jurisdiction, including the U.S., the U.K and many European Union countries.

Estate and Trust Dispute Resolution and Court Applications

When matters become contentious, we can assist you in finding common ground and in negotiating and resolving estate and trust disputes. Court applications can be necessary in trust and estate matters, whether to vary a trust, apply to court for advice and directions, or seek guardianship for a family member, for which we can provide our expertise and experience.
